### Open Letter of Recommendation

We had been participating in 340B since 2002, but over the years we had begun to realize that it might be prudent to search out a company or product which would assist us in expanding our 340B program, while at the same time getting rid of some of the headaches we were encountering. Our contract pharmacy, CVS, actually found Sentry Data Systems for us.

When we contracted with CVS, they thought it might be a good idea to bring in a company that specialized in 340B automation and compliance. That company was Sentry.

The web-based real-time visibility that Sentry provides allows us to always know where our 340B program stands. We know how many prescriptions are being processed and how much money our patients are saving on a daily basis.

Sentry has exceptional customer service. Any issues are responded to immediately through the customer support line and any general questions are addressed just as quickly. Sentry has been a true partner to us in our 340B program.

I would highly recommend Sentry Data Systems.

Sincerely,

A handwritten signature in cursive script, appearing to read "Maria Montanaro".

Maria Montanaro, MSW

President & Chief Executive Officer
