

Charge Master Solution by sentinel RCM™

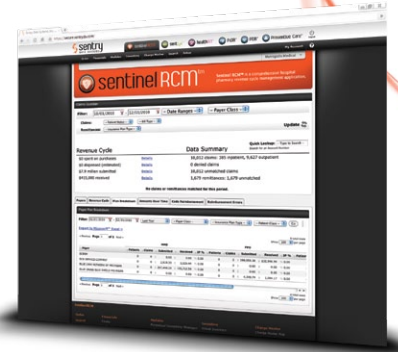

Save **Money**

Save **Time**

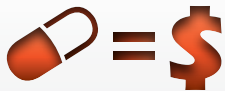

Achieve **Compliance**

Increase **Visibility**

Increase **Control**

CORE features

Balance
Match charges to actual drug utilizations.

Automate
Benefit from consistent, automatic inventory tracking.

Control
Make informed purchasing decisions with complete oversight.

Audit & Search
Stay prepared for any potential audit.

Policies & Procedures
Automated operation of decision processes based on configurations guided by your Policies and Procedures (P&Ps).

Pharmacy and Charge Master Infrastructure Data Analysis that Results in Actionable Information

Procurement

Electronically include all purchasing activity from wholesalers, direct contracts, and other acquisition sources.

Control

Enforce purchasing strategies, monitor inventory levels, and set up policies that govern how your pharmacy purchases and utilizes various drugs.

Utilization

Automatically match your purchases to dispensations for robust and holistic analysis of your costs.

Charge Master Solution

by **sentry RCM**[™]

System Features

- ▶ Complies with markup strategy by keeping chargeable supplies represented in the charge master.
- ▶ Monitors procurement and alerts to discrepancies between actual and contracted pricing.
- ▶ Tracks claims to identify lost or missed charges.
- ▶ Analyzes reimbursement to locate reimbursement mistakes or underpayments.
- ▶ Provides a SAS 70 certified application to protect vital client data and maintain complete HIPAA compliance.
- ▶ Aggregates data from various disparate hospital systems into a single platform web application that can be implemented in a timely manner.

Give your hospital visibility into actionable data that will allow you to implement controls and improve your buying behavior.

The Formulary Matrix

- ▶ This powerful system breaks down a hospital's charge master into discrete formulary matrices which are arranged by drug's ingredient, form, and dosage and are matched to a hospital's complete charge master.
- ▶ Your Formulary Matrix is automatically updated based on purchasing activity, and you are alerted to any changes.
- ▶ Full support is provided for any hospital that links charges to HCPCS (J-Code) billing units.

AutoMapper Decision Support

- ▶ Includes automated guidance for CDM-NDC mapping operations involving multiple NDCs.
- ▶ Decision support is based on drug purchases, existing hospital mappings, intelligent search heuristics, and the Formulary Matrix.

Reports on Your Charge Master

- ▶ Unmapped Charges (CDMs).
- ▶ Unmapped J-Codes.
- ▶ Unmapped NDCs.
- ▶ Notifications on charge master changes and unmapped drugs.
- ▶ Full audit trail with a documented history of all changes.

Enforce Your Purchasing Decisions

- ▶ Set up automatically enforced policies that govern how your pharmacy uses and buys various drugs through Sentry RCM.
- ▶ Connect to other systems for a powerful look at aggregated data from a variety of feeds, and seamlessly integrate with all major medstation systems (Accudose, Omnicell, and Pyxis).
- ▶ Feed formulary matrix updates back to other systems via XML or HL7 messages. Sentry RCM includes unlimited downloads of your formulary, which you can use to update other systems manually or through a process Sentry can automate.

About sentry

Sentry Data Systems, Inc. is a healthcare intelligence company offering technology solutions that address a wide variety of workflow, compliance, technical and financial challenges. Sentry's products serve hundreds of hospitals and pharmacies across the country and have saved clients millions of dollars to date. Sentry processes millions of eligibility, financial, clinical, and pharmacy transactions per day on over 15 million patients.
