

Choose the Leading Hospital 340B Compliance Company

Did you know?

The technology requirements needed to maintain 340B compliance in contract pharmacies for a Disproportionate Share Hospital (DSH) are more comprehensive, challenging, and complex than the requirements needed for a Federally Qualified Health Center (FQHC) or Community Health Center (CHC).

Sentry Data Systems has built its technology to meet all the requirements of a 340B hospital in both the mixed-use and contract pharmacy settings.

Before selecting a software provider for your 340B contract pharmacy needs, there are a number of important issues to consider.

Can your software solution:

- ▶ Keep you compliant?
- ▶ Provide complete visibility into financial reconciliation?
- ▶ Give you access to an audit trail from the penny to the pill to the provider to the patient?
- ▶ Demonstrate that they have experience with multiple contract pharmacies for hospitals, not just FQHCs?

Let us provide you with a

Are you asking the right questions of potential 340B partners?

Learn how Sentry addresses all of these concerns for you.

Q: How many years of 340B experience with hospitals (not FQHCs) does the company have?

A: Sentry has more than five years of 340B compliance experience with hospitals that are 340B eligible and enrolled.

Q: How many contract pharmacies has the company successfully implemented?

A: Sentry has implemented hundreds of contract pharmacies coast-to-coast for our hospital client base using Sentrex, our pharmacy transaction processing solution.

Q: Are your 340B program's financial reconciliation records auditable and available real-time?

A: With Sentrex, your end-to-end audit trail components are accessible instantly.

Q: Does the 340B technology company give you confidence your data is managed within a full solution platform that operates with the highest levels of integrity and security?

A: Sentry's solutions are hosted through a SSAE16 certified infrastructure that is fully HIPAA compliant. Sentry's secure, web-delivered applications make the process of deploying our 340B compliance solutions simple and quick, requiring no IT footprint in the hospital or pharmacy.

Q: Can the software solution effectively track your "just in time" inventory purchases for your outpatient oncology area or other purposes and will this solution allow you to be prepared for an audit?

A: Sentry's solutions capture all orders initiated both inside and outside the system using a unique purchase order (PO) and invoice capture process. This is essential in being able to account for all purchases and utilizations.

Q: Does the 340B solution have automated decision processes that incorporate your facility's specifications?

A: All of Sentry's 340B solutions automate operation of decision processes based on configurations guided by your Policies and Procedures (P&Ps).

Q: Can the 340B contract pharmacy solution determine real time point-of-sale eligibility?

A: Sentry performs real time point-of-sale eligibility compliance checks to allow for maximum accurate program capture with no additional operational requirements for contract pharmacies.

Q: How are multiple contract pharmacies managed with full compliance in an ever-changing 340B regulatory environment?

A: Sentry has been handling multiple contract pharmacies for more than seven years with multiple Integrated Delivery Networks (IDNs). Call Sentry Data Systems at 800-411-4566 and speak with a salesperson for a full explanation on how we've handled these complex situations with the most comprehensive 340B solution in the industry.

Q: How quickly are changes to 340B regulations incorporated?

A: Sentry's experience in 340B compliance coupled with our team of pharmacists and doctors, means that our solutions are up-to-date on all 340B regulations and guidelines. Our staff is actively updating Sentinel RCM and Sentrex as legislative requirements are changing.

Q: What kind of customer support is provided?

A: Sentry offers 24/7 customer support, 365 days a year. We're here for you. Any time. Any day.

About Sentry

Sentry Data Systems, Inc. is a healthcare intelligence company offering technology solutions that address a wide variety of workflow, compliance, technical and financial challenges.
